Subject: Mykel

Becca,

I have been derelict in sending you a note regarding Mykel Miller. Mykel was our primary interface for the installation of a Pulastic floor at our home. And has since answered a number of questions we had. The experience with Mykel couldn't have been better. He is not only very knowledgeable but tremendously responsive to our barrage of questions and requests. You have a very happy customer. (And the floor is terrific).

Thanks

Mark
